

REMARKS

In the Advisory Action of August 28, 2007, the Examiner has indicated all claims are allowed except claim 25, which is rejected, because the previous correction to claim 25 was not entered.

The Examiner states that the application is not in condition for allowance, since Applicants did not amend the specification as agreed to by Applicants' previous representative in an interview in September of 2006.

Applicants hereby amend the application to support the language of claim 9 directed to "at least 68% of...having a diameter of less than 0.5 micrometers," as required by the Examiner. The above amendment to the specification follows from the statistical calculations in Applicants third declaration, with respect to Table 4 of the original specification.

Should the Examiner consider that additional amendments are necessary to place the application in condition for allowance, the favor is requested of a telephone call to the undersigned counsel for the purpose of discussing such amendments.

Respectfully submitted,

Chris P. Konkol.
Attorney for Applicant(s)
